#### STATE DEPARTMENT OF EDUCATION:

1- The Secretary called to the attention of the Board the following provision in the appropriation to the Board of Public Works for the current fiscal year.

"06.03.00.33 Aid to Education-Additional Payments to Political Subdivisions to pay to the respective Political Subdivisions such amounts as equal the difference between equalization and incentive fund aid calculated on a revised assessable basis for such Political Subdivision which excludes the abatements, revisions or reductions of assessments hereinafter described, and the amount of equalization and incentive fund aid heretofore calculated on an assessable basis certified to the State Department of Education by the State Department of Assessments and Taxation, which basis included assessments hereinafter described. The amount of said payments shall be calculated by the State Department of Education based upon a revised assessable basis calculated by the Department of Assessments and Taxation. Said revised assessable basis shall exclude from the assessable basis heretofore certified as aforesaid only the amounts of the abatements, reductions or revisions of those assessments: (1) which are determined by the Attorney General to have been abated, reduced or revised as a result of the decision in the Martin Company v. State Tax Commission, 225 Md. 404 and (2) on which the refunds of taxes have actually been paid in full."

The amount of the payments provided in the foregoing appropriation had been calculated by the State Department of Education based upon the revised assessable basis calculated by the Department of Assessments and Taxation, and the Attorney General has certified that the decrease in the assessments have been determined by him to have been abated, reduced or revised as a result of the decision on the Martin Company v. State Tax Commission, 225 Md. 404.

The calculations of the State Department of Education indicate a total loss in Aid to Education to the counties of \$1,051,473.03, which is \$76,473.03 in excess of the amount provided in the Budget Bill. In a letter dated January 16, 1963, the State Superintendent of Schools acknowledged an overpayment to Baltimore County of \$74,261.39. He recommended that this amount be deducted from Baltimore County's total share and that the deficiency in the \$975,000.00 appropriation, in the amount of \$2,211.64, be transferred from the General Emergency Fund.

At the request of Mr. Rennie and the Secretary, the State Auditor was asked to review the figures and calculations in connection with the disbursal of these funds.

The Secretary advised the Board that, as a result of the State Auditor's examination of the records for the period under review in the Martin Case, it has been determined that Baltimore County had been overpaid \$74,261.39. The Attorney General has determined in a letter to the Director of the Department of Budget and Procurement that the overpayment to Baltimore County could be recovered by deducting the amount of the overpayment from the pro-rated share of the \$975,000.00 appropriation provided as a result of the Martin Case.

The Board decided that the distribution to the political subdivisions in this case should stay within the \$975,000.00 appropriation and should be pro-rated as follows:

	Amount due from the Board of Public Works' Appropriation	Percent	Less Deficiency	Net
Baltimore City	\$ 19,663.15	1.870	\$ 1,430.05	\$ 18,233.10
Baltimore County	768,850.92	73.121	55,917.84	712,933.08
Montgomery County	4,017.04	.382	292.13	3,724.91
Prince George's County	39, 258.88	3.734	2,855.50	36,403.38
Washington County	219,683.04	20.893	15,977.51	203,705.53
Total	\$1,051,473.03	100%	\$76,473.03	\$975,000.00
Payable to Baltimore Count Less: Overpayment of Ed			.2,933.08 '4,261.39 \$	638,671.69 .

The Board also authorized the Secretary to deduct from the Baltimore County share of the \$975,000.00 appropriation the \$74,261.39 overpayment.

Since Baltimore County's share is shown in the above calculation as \$712,933.08, a deduction of \$74,261.39 leaves a balance of \$638,671.69 due them.

The balance of \$74,261.39 in the appropriation shall be reverted to the General Funds of the State at the close of the 1963 Fiscal Year.

(St. Dept. of Education)

After this appointment this partnership was dissolved. The State work assigned to the three partners was by mutual consent to be finished by the firm of Knecht and Human.

Item A-5-C - "Reference is made to Item A-1-O of this department's agenda of August 13, 1962 recommending appointment to firm of Gaudreau and Gaudreau for Construction of Women's Dormitory, 150 beds, including site improvements (equipment to be requested later). At that time it was believed that this dormitory would be a duplication of plans and specifications previously constructed at the college; however, after further study it was found that this project was not a straight duplication project but that the project be considered a new facility in view of the numerous changes and redesign necessary. It is therefore recommended that the fee schedule for this work be changed from Type "D" schedule as formerly recommended and approved to a Type "B" Schedule.

"This department has been advised that the name of the firm of Gaudreau and Gaudreau has been changed to The Office of Gaudreau-Architects. It is requested that this change be so noted."
